Melike DeGregorio
Greenup Consultants
Quincy, MA. 02269

To whom it may concern:

It is my pleasure to write this letter highly commending Greenup Consultants for their invaluable services to our company in the recent overall assistance in the preparation and timely submission of Tier II and TRI reports to the EPA and other authorities requiring this information.

During the preparation of these reports Greenup Consultants painstakingly toured our facility to understand our manufacturing processes, sharing their observations and making important recommendations. Training was conducted on both occasions of these reports which was very informative and gave a very clear picture of not only the why but also the structure of the reports and the knowledge required to complete future reports on your own.

Greenup Consultants made the preparation and submission of these reports almost effortless and because of their patient and friendly demeanor it was a pleasure to work with them.

Sincerely,

Rod Leighton
